Chases and escapes: The mathematics of pursuit and evasion. Paul J. Nahin. hardback - 270 pages (2007) Princeton University Press. ISBN-10: 0691125147. ISBN-13: 978-0691125145. Lewis Dartnell is a biologist now finishing his PhD at University College London's CoMPLEX (Centre for Mathematics & Physics in the Life Sciences and Experimental Biology).

## **'Chases and escapes' | plus.maths.org**

Pursuit theory has been a favorite mathematical recreation of mine since the early 1990's. In this book, the author explores many continuous and discrete pursuit/evasion situations with clarity and succinctness. I encourage anyone with a background in differential equations to work through the problems in this book.
