3.WARNING FUNCTION. ES start system alerts by beeping the warning buzzer and lighting or blinking the indicator light to classify the alarms when dangerous operations or failures occur. When a failure alarm is displayed, perform the failure diagnosis by using diagnosis function.

HOW TO PROCEED WITH TROUBLESHOOTING

Well, the warning light looks like an 'E' that is sailing in the water. This dashboard warning light warns you to keep the engine cool. So, it appears when the engine has become too hot and it probably needs the instant attention. Engine maintenance tips must, therefore, be followed from time to time for safe driving.

Dashboard Warning Lights Explained - CAR FROM JAPAN

This light comes on when the ignition switch is on. It goes off when the electric motor is ready to run. The warning light comes on when the hybrid vehicle battery temperature is low or high, or the hybrid vehicle battery capacity is decreased with the selector lever at "R" during driving. If the light comes on, the power will be limited. Drive your vehicle without hard acceleration.
