### **Monohybrid And Dihybrid Crosses Question**

Q. In flowers, purple color is dominant to pink and short is dominant to tall. Cross a flower that is heterozygous for both traits with another flower that is pink and tall.

### **Monohybrid and Dihybrid Cross**

# Online Library Monohybrid And Dihybrid Crosses Question Practical Paper Term 2 File **Practice Quiz - Quizizz**

Explanation: If a gene is heterozygous it will have two different alleles for the same gene, thus in case of monohybrid cross where only a single gene is considered maximum two alleles are under consideration. For dihybrid cross the number will be 4.
