Report to Congressional Requesters

FCC Reform. In order to enrich competition and protect consumers, the FCC seeks to continuously improve activities at the core of its mission. Many of these actions seek to reimagine the way that Americans interact with their government. Other reforms, such as updating databases and systems that facilitate industry interactions, make it easier for American businesses to do their work.

FCC Reform | Federal Communications Commission

Background Prior regime. Previously, the Communications Act of 1934 ("1934 Act") was the statutory framework for U.S. communications policy, covering telecommunications and broadcasting. The 1934 Act created the FCC, the agency formed to implement and administer the economic regulation of the interstate activities of the telephone monopolies and the licensing of spectrum used for broadcast and ...
